IMPORTANT NOTIFICATION

International application No.
PCT/AU2004/001712

International filing date (day/month/year)
3 December 2004

Priority date (day/month/year)
4 December 2003

Applicant

UNISEARCH LIMITED et al

1. The applicant is hereby notified that this International Preliminary Examining Authority transmits herewith the international preliminary report on patentability and its annexes, if any, established on the international application.
2. A copy of the report and its annexes, if any, is being transmitted to the International Bureau for communication to all the elected Offices.
3. Where required by any of the elected Offices, the International Bureau will prepare an English translation of the report (but not of any annexes) and will transmit such translations to those Offices.
4. **REMINDER**

The applicant must enter the national phase before each elected Office by performing certain acts (filing translations and paying national fees) within 30 months from the priority date (or later in some Offices) (Article 39(1)) (see also the reminder sent by the International Bureau with Form PCT/IB/301).

Where a translation of the international application must be furnished to an elected Office, that translation must contain a translation of any annexes to the international preliminary report on patentability. It is the applicant's responsibility to prepare and furnish such translation directly to each elected Office concerned.

For further details on the applicable time limits and requirements of the elected Offices, see Volume II of the *PCT Applicant's Guide*.

The applicant's attention is drawn to Article 33(5), which provides that the criteria of novelty, inventive step and industrial applicability described in Article 33(2) to (4) merely serve the purposes of international preliminary examination and that "any Contracting State may apply additional or different criteria for the purposes of deciding whether, in that State, the claimed invention is patentable or not" (see also Article 27(5)). Such additional criteria may relate, for example, to exemptions from patentability, requirements for enabling disclosure, clarity and support for the claims.

Box No. V Reasoned statement under Article.35(2) with regard to novelty, inventive step or industrial applicability; citations and explanations supporting such statement

1. Statement

Novelty (N)	Claims 1-19	YES
	Claims	NO
Inventive step (IS)	Claims 1-19	YES
	Claims	NO
Industrial applicability (IA)	Claims 1-19	YES
	Claims	NO

2. Citations and explanations (Rule 70.7)

D1 US 2003/0134409

NOVELTY (N) Claims 1-19

D1 teaches (and discloses the prior use of) zero valent metals for the treating contaminated soils and represents the state of the art.

None of the prior art documents disclose a method of aerobically treating contaminated solid surfaces with zero valent metals in order to produce hydroxyl radicals.

INVENTIVE STEP (IS) Claims 1-19

The prior art teaches the use of zero valent metals to treat contaminated soils and aquifers in reductive environments that do not have significant oxygen content and thus teaches away from the aerobic treatments of the current invention.
